

Business Controller

At Stiesdal A/S we offer the opportunity to make a real difference in the fight against climate change. Our team of creative thinkers are making true impact and joining us could be the most exciting and fulfilling step in your career.

Are you up for the challenge?

We are currently looking for an experienced Business Controller to support projects across the company.

You will be part of our newly established Finance team, currently consisting of a CFO and an accountant. We have a high understanding of value drivers in the business and constantly strive to be agile and adaptable to the changing environment. Your job will involve close dialogue with the Leadership Team to ensure a continuous business improvement.

Core Responsibilities

In this role you will be responsible for delivering high quality project control, planning and reporting. You will play a vital role in providing the financial transparency required to meet our strategic goals. In addition to this, you will help drive the development of our underlying finance process and tools by preparing budgets, management reports and other business critical deliverables.

Alongside your team, your key tasks will also include:

- Preparation of expected cash flow statements per business unit
- Responsibility for the forecasting process based on the progress and project performance as well as on cost control and input from the project teams
- Review and verification of product calculations and monitoring of product profitability
- Establishing a KPI structure to support product and business development.
- Serving the organization with meaningful and relevant business information through ad-hoc analysis and reporting.

To succeed in this role

The preferred candidate has a relevant economics and business-oriented master's degree such as Cand.Merc. or similar. In addition, you have several years of experience from a similar position and experience with business controlling, project controlling as well as experience as a business partner. Good communication skills and strong written, verbal and presentation skills in Danish and English. You have solid IT and analytical skills.

Personal qualifications

- You are curious and have a flair for analysing issues from multiple angles
- You have a business partner mindset

- You have a sense of detail
- You approach your work with enthusiasm and are self-driven, passionate, and committed
- You can work independently and at the same time you are open for input and sparring
- It is natural for you to take on responsibility and you are confident in taking on a key role in complex tasks.
- You perform well in the dynamic environment of a start-up organization.

What we offer

We offer an exciting and versatile job working with a wide variety of tasks across our subsidiaries. You will get a job within a vibrant department where there is a friendly spirit. Our core values are honesty, integrity, and respect for people. We firmly believe in the fundamental importance of trust, openness, teamwork, and pride in what we do.

The working location is at our office in Give.

About us
