

Business Controller

Do you have a solid financial background and know what it takes to provide top professional service and support? Do you thrive in a value-based environment where words and actions go hand in hand? Do you want to work with large responsibility and a wide range of tasks? Are you motivated by combining analysis with execution and follow-up, and are you able to collaborate in an international organization with great ambitions? Then it may be you we are looking for.

For our customer Stiesdal A/S, TornbjergSchou is looking for an experienced Business Controller who is skilled in both analyzing and processing the figures, but also thrives in a company in significant marked growth. A growth which means that structure and processes are constantly evolving, and you will at all times have to be able to adapt both your professional qualifications and your personality to the company status - in other words, you will have the opportunity to create value in a dynamic and agile company, where employee competencies, development and well-being are paramount.

Stiesdal A/S is a new and fast-growing climate technology group with activities in floating off-shore wind, energy storage, Power-to-X hydrogen production and carbon capture and storage combined with green fuel production.

Job description:

You will be the right hand to the Head of Finance and the rest of the Executive Management, sparring partner to Project Managers and contributor to the Board of Directors. You have an eye for optimizations of both systems and processes, and you actively contribute to the development of the overall finance team. Based on data, your task will be to support the company's management and other functions with a view on possible adjustments and optimizations – both in projects, divisions and the company as a whole. In short - you create an informed basis for future decisions.

In addition, your primary tasks will be:

- Hands-on consolidation of internal accounts and reporting to the Executive Management
- Prepare and manage budgets and estimates
- Deviation analyses - including follow-up
- Cost-benefit analyzes - including follow up on investment payback
- Preparation of relevant presentations to the Executive Board and the Board of Directors
- Preparation of expected cash flow statements per business unit
- Responsibility for the forecasting process based on the progress and project performance as well as on cost control and input from the project teams
- Review and verification of product calculations and monitoring of product profitability
- Serving the organization with meaningful and relevant business information through ad-hoc analysis and reporting

Your background:

You have a relevant economics and business-oriented master's degree such as cand.merc. or similar. In addition, you have several years of experience from a similar position and experience with business controlling, project controlling as well as experience as a business partner.

The position is a key role in supporting the company's future growth, and it is important that you have experience in building and operating a similar role - including prioritizing and creating the necessary structure.

You are business oriented and communicate clearly at all levels of the organization, just as you manage to inspire and engage with a professional, welcoming and energetic approach to the tasks.

In addition, we expect the following:

- You have solid experience with both project, business and financial controlling and reporting - your accounting expertise is high
- You have experience with consolidation of consolidated accounts
- You have a solid and broad knowledge of IT - including Excel, ERP, BI
- You are analytically strong, structured and strategically thinking
- You are a professional and a skilled communicator who can act at all levels in an organization and are used to argue based on facts and key figures - experience from working with private equity funds is also an advantage
- You are committed and innovative and dare to challenge the "the normal way of thinking"
- You speak and write Danish and English

Stiesdal A/S offers:

You will be part of a dynamic company in growth where both professionalism and flexibility but also kindness are key words in every positions.

You are offered a job that you in every way can influence yourself - continuous professional and personal development and a remuneration package that matches your qualifications in a company whose core values are honesty, integrity and respect for people - and where they fully and firmly believe in the fundamental importance of trust, openness, teamwork and pride in what they do.

TornbjergSchou is working to fill the job as soon as possible, which is why there is no deadline for applications. If you have any questions, please feel free to contact Helene Tornbjerg or Frank Richard Schou on +45 40 60 71 00.
